+ Onde posso encontrar? + →

Onde posso encontrar?

The screenshot shows the Epic Games Launcher interface. At the top, there's a navigation bar with tabs: Novidades (selected), Amostras, Loja, Biblioteca, and Twinmotion. A message box in the top right corner says "Não instalado" and "Unreal Engine 5.0.3". On the left, a sidebar has icons for Loja, Biblioteca, and Unreal Engine. The main area features a large image of a cluttered desk with multiple monitors and creative tools. To the right of the image, a callout box announces "Twinmotion 2022.2 is here!" and describes the update's features. Below the main image are links for News, YouTube, Q&A, Forums, and Roadmap. The bottom section is divided into "Featured Content" and "Featured Screenshot". "Featured Content" includes a thumbnail of a person gaming and a banner for the "EPIC MEGAJAM 2022" with the text "REGISTER NOW". "Featured Screenshot" shows a vibrant, colorful scene from the game "Tales of the Adventurers Inn".
